6. Discussion Items

6.1 Update on State Fiscal Situation and Other Matters

Senior Vice President and Chief Financial Officer Kenneth A. Jessell reported that on September 15, 2017, the Joint Legislative Budget Commission adopted the Long-Range Financial Outlook for the next three state fiscal years. He provided a comprehensive report on the State’s long-range financial outlook, noting that overall Florida’s economy is strong with growth rates returning to more typical pre-recession levels. He indicated that prior to Hurricane Irma, the Outlook was projecting a $52M surplus for FY 2018-19, adding that the State has already spent more than $141M on hurricane preparation and recovery through mid-October. He further stated that the Outlook found that spending growth in the state’s critical needs is continuing to outpace growth in revenues and that recently, the Legislature has been using trust fund transfers to delay or avoid budget shortfalls.

Sr. VP and CFO Jessell noted that FIU and all the other State University System institutions will be submitting a revised carryforward fund balance once all prior commitments have been met. He further reported that enrollment and revenues are on target, noting that enrollment was slightly higher than projected, which can be attributed to the fall mini term that began in October and ends in December. He added that University expenses are below target by approximately 3% of which there is $1.6 million in non-delayed expenses. He stated that FIU expenditures for Hurricane Irma are estimated at $7.2 million and mentioned that federal reimbursement can be a lengthy process.

In response to Trustee Grant’s inquiry regarding costs associated with operating as a shelter during Hurricane Irma, Sr. VP and CFO Jessell noted that the University operates under a Memorandum of Understanding (MOU) with Monroe County to provide shelter for special needs residents. He stated that Pursuant to the MOU, FIU provides physical space, and Monroe County Health Department is responsible for the operation of the space when it has been activated as a shelter. Sr. VP and CFO Jessell noted that expenses incurred in association with the general population evacuees received under Governor Rick Scott’s order that all state universities close and be available to serve as general population shelters, while not covered under the MOU, should be eligible for federal reimbursement.

President Rosenberg stated that the University expects a $1.5M increase in Florida Power and Light costs beginning in the spring. He added that for the past eight years, FIU has ranked as the most
energy efficient state university and that the University will continue to seek cost-saving measures that can help absorb the increase.

6.2 Hurricane Redux
President Rosenberg explained that FIU’s Emergency Operations Center (EOC) was activated and coordinated the response and recovery actions for Hurricane Irma. He also noted that University staff assigned to the EOC participate in a number of tabletop exercises each year in order to better prepare for emergency events. He stated that FIU is the designated out-of-county shelter for the special needs residents of Monroe County for all category storms. He pointed out that there could be and have been instances where Monroe County is under threat of a storm, but Miami-Dade County is not.

President Rosenberg presented an overview of the University’s preparations in anticipation of Hurricane Irma and led the discussion on issues relating to shelter operations. He stated that U.S. Secretary of Labor R. Alexander Acosta and other government officials, such as Governor Rick Scott, Lieutenant Governor Carlos Lopez-Cantera, and Congressman Carlos Curbelo, visited FIU’s special needs shelter. He added that Health and Human Services Secretary Tom Price also traveled to FIU to visit the special needs shelter.

President Rosenberg indicated that FIU’s Florida Advanced Surgical Transportation and State Medical Response teams brought the NeighborhoodHelp Mobile Health Center to Fishermen’s Community Hospital in Marathon, FL. He added that a group of FIU voice students performed for Irma evacuees and that an information call center was established. He stated that a Hurricane Symposium, Lessons Learned, is scheduled for December 1, 2017 and will provide a forum for federal, state, and local officials as well as the private sector to exchange ideas and offer best practices to improve all phases of emergency management in Florida, the U.S. and abroad.

Board members engaged in a substantive discussion regarding shelter operations at FIU. Trustees concurred that shared responsibility among agencies is critical in terms of the costs associated with making improvements to the FIU shelter building and its facilities and noted that limits in accordance with capacity should be established.

7. New Business
In response to Trustee Colson’s inquiry, President Rosenberg stressed the importance of Trustee involvement in communicating with Governor Scott and his office in support of FIU’s request for the construction of a Hotel, Conference Center, and Alumni Center on the Modesto A. Maidique Campus. Trustee Colson commented that the Board of Trustees meeting schedule would benefit from having an additional meeting of each committee in order to allow more time for discussion on topics critical to the University’s advancement.

Trustee Colson requested that University administration develop an action plan aimed at improving FIU’s standing in U.S. News & World Report rankings. Provost Furton noted that representatives from U.S. News & World Report will be meeting with University leadership on December 11 and 12, 2017 to discuss strategies for improvement in the rankings.

Subject: Performance-based Funding – Metric 10: Board of Trustees Choice

Proposed Board Action:
Select the Florida Board of Governors (BOG) Performance Funding Metric 10: University Board of Trustees Choice.

Background Information:
The BOG Performance Funding Model consists of eight metrics common to all State University System institutions and two specific to each university. The BOG selected as FIU’s institution-specific metric “Bachelor’s without excess hours” in September 2013. The Florida International University Board of Trustees (BOT) must (1) choose one metric from a prescribed list of metrics (2) propose benchmarks for excellence, on a scale of 1-10, for the chosen metric. The excellence benchmarks should be established so that in the first year of implementation, the university will receive no more than seven (7) points and (3) propose benchmarks for improvement, on a scale of 1-10, for the chosen metric.

As instructed by the BOG, the FIU BOT approved three choice metrics at its September 7, 2017 meeting. The three metrics were reviewed by the BOG Budget and Finance Committee at its meeting on October 3, 2017. After reviewing the choice metrics, the BOG has requested that instead of the previously requested three metrics, the BOT recommend only one.

Pursuant to Florida Statute 1011.905, state performance funds for the State University System shall be based on indicators of system and institutional attainment of performance expectations. To implement performance funding, the BOG has developed the BOG Performance Funding Model and requires the BOT to select its own “Choice Metric” for inclusion in the Performance Funding Model to represent the particular goals or challenges of the University.
