1. Call to Order and Chair’s Remarks
The Florida International University Board of Trustees’ Governance Committee meeting was called to order by Board Chair Claudia Puig on Wednesday, September 5, 2018 at 12:00 p.m. at the FIU, Modesto A. Maidique Campus, Graham Center Ballrooms.

Board Chair Puig welcomed all Trustees and University faculty and staff to the meeting.

General Counsel Carlos B. Castillo conducted roll call of the Governance Committee members and verified a quorum. Present were Trustees Claudia Puig, Board Chair; Cesar L. Alvarez; Leonard Boord; Gerald C. Grant, Jr.; and Justo L. Pozo.

Trustee Jose J. Armas, Board Vice Chair, was excused.

Trustees Dean C. Colson, Natasha Lowell, Joerg Reinhold, Marc D. Sarnoff, Jose L. Sirven, III, and Rogelio Tovar and University President Mark B. Rosenberg were also in attendance.

2. Approval of Minutes
Board Chair Puig asked if there were any additions or corrections to the minutes of the Governance Committee meetings held on May 23, 2018 and June 6, 2018. A motion was made and unanimously passed to approve the minutes of the Governance Committee meetings held on Wednesday, May 23, 2018 and Wednesday, June 6, 2018.

3. Action Items
G1. 2018 Florida Educational Equity Act Report
Director of Equal Opportunity Programs and Diversity Shirlyon J. McWhorter presented the 2018 Florida Educational Equity Act Report for the Committee’s review. Ms. McWhorter provided an overview of the University’s 2017-18 Florida Equity Report, explaining that the Report is comprised of three areas: enrollment; athletics; and employment. She reported on the University’s performance in various areas, including the representation of under-represented groups among full-time First Time in College (FTIC) students, research doctorates awarded, and female students’ participation in college athletics.

Board Chair Puig and Trustee Gerald C. Grant, Jr. concurred that initiatives in the areas of academic advising, outreach efforts, and student financial assistance have contributed to student success.
In response to Board Chair Puig’s inquiry, Provost and Executive Vice President Kenneth G. Furton explained that the percentage of tenured faculty is indicative of an institution’s maturity and also is directly correlated with certain national rankings.

In response to Trustee Leonard Boord’s inquiry pertaining to metrics that capture the impact of academic advising, Senior Vice President for Academic and Student Affairs Elizabeth M. Bejar stated that while the Equity Report template, which is determined by the Board of Governors, may not provide the format where this information can be presented, quantitative metrics to assess academic advising services can be provided to the Trustees separately. Provost Furton indicated that student dashboards allow advisors to more easily monitor student progress and success, manage their advising relationship, and collect student data.

In response to Trustee Boord’s inquiry pertaining to the use of technology in furthering advising efforts, Sr. VP Bejar explained that the University has developed an intrusive model of advising, where advising is mandatory for all students in their freshmen year. She indicated that FIU utilizes a universal advising record and predictive data analytics, which are supported by a technology-augmented advising system.

A motion was made and unanimously passed that the FIU Board of Trustees Governance Committee recommend FIU Board of Trustees approval of the 2018 Florida Educational Equity Act Report.

**G2. Ratification of the 2018-2021 Collective Bargaining Agreement between the Florida International University Board of Trustees and the United Faculty of Florida - FIU Chapter**

Provost Furton presented the ratification of the 2018-2021 Collective Bargaining Agreement between the FIU Board of Trustees and the United Faculty of Florida - FIU Chapter for Committee review. He presented an overview of the key terms, explaining that the new contract is a three-year contract, that all eligible covered employees will receive a 1.50% retention increase to their base salaries, with a minimum increase of $750, and that the promotion increase from Instructor to Assistant Librarian will be increased from 9% to 11%

A motion was made and unanimously passed that the FIU Board of Trustees Governance Committee recommend that the FIU Board of Trustees (the BOT) ratify the 2018-2021 Collective Bargaining Agreement between the BOT and the United Faculty of Florida (UFF) – FIU Chapter.

**G3. Updated Exclusion Resolution and Designation of Key Management Personnel and Delegation of Authority**

Provost Furton presented the Updated Exclusion Resolution and Designation of Key Management Personnel and Delegation of Authority for Committee review. He explained that Department of Defense regulations and policy require that the University’s key management personnel, including Board of Trustees members, either be cleared to the level of the facility clearance or be expressly excluded from classified access. He stated that the composition of the FIU Board of Trustees has changed since the adoption of the Exclusion Resolution and that accordingly, an update to the Exclusion Resolution is needed to reflect the current composition of the FIU Board of Trustees and the exclusion of those Board members, including the new Board of Trustees members, from the requirements for a personnel security clearance.
A motion was made and unanimously passed that the FIU Board of Trustees Governance Committee recommend that the Florida International University Board of Trustees adopt a Resolution that updates the exclusion of the named members of the FIU Board of Trustees from the requirements for a personnel security clearance and adopt a Resolution designating Key Management Personnel for Florida International University’s facility clearance, and delegating to them certain responsibilities and authorities pursuant to the National Industrial Security Program Operating Manual (NISPOM).

9.011 University Direct Support Organizations and Health Services Support Organizations

(1) University boards of trustees may establish direct support organizations (“DSO”) and health services support organizations and certify them to use university property, facilities and personal services. Such support organizations shall be organized and operated to serve the best interests or missions of the university, including a university’s research, education and service missions, and may receive, hold, invest, and administer property and make expenditures to or for the benefit of the university or for the benefit of a research and development park or research and development authority affiliated with a university.

(2) Each board of trustees shall establish by regulation conditions with which a support organization must comply in order to use university property, facilities, or personal services and such additional conditions, controls, and requirements for support organizations as each board deems appropriate to provide for budget and audit review and oversight. In addition, the regulation must include the following conditions:

(a) The establishment of appropriate thresholds that delineate when approval by the board of trustees is required for the purchase of goods and services by a DSO.

(b) All debt issued by a DSO is subject to the State University System Debt Management Guidelines and all public-private partnership transactions involving a DSO are subject to the State University System Public-Private Partnership Guidelines.

(c) The establishment of appropriate thresholds that delineate when approval is required by the board of trustees for the acquisition of real property and the construction or renovation of facilities by a DSO.

(d) University personal services used by a DSO are subject to the remuneration requirements set forth in section 1012.976, Florida Statutes.

(e) A DSO is prohibited from using state funds for travel expenses incurred by the DSO.

(f) A DSO is prohibited from giving, either directly, or indirectly, any gift to a political committee as defined in section. 106.011 Florida Statutes, for any purpose.

(23) The Director or Chief Executive Operating Officer of the support organization shall report to the University President or designee.

(34) Operating budgets of support organizations shall be prepared at least annually, and approved by the organization’s governing board and the university board of trustees or designee. Significant changes in planned expenditures in the approved budget must be reported to the university board of trustees or designee as soon as practicable but no later than the deadline established by a board of trustees.
Support organizations shall provide for an annual audit conducted pursuant to university regulations or policies. The annual audit report shall be submitted to the university board of trustees for review. The approved audit report shall be submitted to the Board of Governors, and the Auditor General. The university board of trustees or designee, the Board of Governors, the Auditor General, and the Office of Program and Policy Analysis and Government Accountability may require and receive any records relative to the operation of a support organization from the organization or its independent auditors.

Each support organization shall submit its federal Internal Revenue Service application for Recognition of Exemption form (Form 1023) and its federal Internal Revenue Service Return of Organization Exempt from Income Tax form (Form 990) to the university board of trustees or designee at the times required by the applicable regulation or policy of the board of trustees. Copies of such forms shall be provided by each university to the Board of Governors.

As of July 1, 2019, any transfer of a state appropriation to a DSO is limited to funds pledged for capital projects.

(a) This regulation does not prohibit the transfer of non-state funds between university DSOs, or the transfer of non-state funds to the DSO, as long as the original source of funding was not a state appropriation.

(b) A DSO may transfer funds and provide the use of DSO property, facilities or personal services without any charge to the university.

(c) Effective for fiscal 2018-2019, and annually thereafter, each university will report to the Legislature and the Board of Governors all transfers of state funds to each university DSO, using the format and instructions specified by the Chancellor.

A support organization shall provide equal employment opportunities to all persons, regardless of race, color, national origin, sex, religion, age, disability, marital status, veteran status, or any other basis protected by law.

The chair of the university board of trustees shall appoint at least one representative to each DSO board of directors and executive committee (if any). The university president or designee shall also serve on the board of directors and executive committee of each DSO. The university board of trustees shall approve all appointments to any DSO board other than the chair’s representative(s) or the president or president’s designee. The chair’s designee may not be the university president; nor may the chair and president appoint the same person to represent both the chair and the president on any one DSO board.

University boards of trustees shall decertify a support organization if the university board of trustees or designee determines that the organization is no longer serving the best interest or mission of the university and decertification is appropriate.
In decertifying a support organization, the board of trustees shall require an accounting of the organization’s assets and liabilities and take such reasonable action as necessary to secure the return of all university property and facilities as requested by the university.

Delegation Best Practices and Principles

The following points are best practices and principles gleaned from our review of other universities and university systems and have been included as general parameters for consideration by boards of trustees when undertaking a review of presidential delegations of authority.

- All delegations should be in writing, maintained by a central office at the university, and at least a summary should be publicized on the university’s website.
- Authority for matters that require specific approval of the board of trustees may not be re-delegated. *(Note: This determination may require assessment of language as well as Board of Governors’ practice, as designee language is not consistently used when allowed. Areas where Board of Trustee approval is required includes, but is not limited to, strategic plans, work plans, debt management, public-private partnerships, new degree programs, budgets, regulations, naming of buildings, educational sites, and establishing direct support organizations.)*
- Generally, delegations of authority “flow down” through the chain of command. The Board delegates authority to the President, who delegates to a direct report, etc.
- Each delegation should include the source of the delegated authority, a description of or reference to the delegated authority, limitations including restrictions on re-delegation, and a reference to any existing delegations that will be modified, amended, or superseded by the action.
- Delegations should be made to a position (or position and individual while incumbent) not an individual.
- Re-delegated authority must note the original delegation, be consistent with the conditions of the original delegation, and reported to the board of trustees.
- Delegation or re-delegation is prohibited if the delegate holds a specific or unique individual conflict of interest or the appearance of a conflict (e.g., based on the individual’s financial interests), or if such a conflict or appearance of a conflict develops or occurs. If such a conflict of interest or the appearance of a conflict arises once the delegation or re-delegation is in effect, the delegate or the delegate’s supervisor must manage the conflict. If the conflict of interest or the appearance of a conflict persists, the delegation or re-delegation should be withdrawn.
- Consider whether a delegation should be converted to a role or responsibility and incorporated into an employee’s job description.
- Establish a deadline for a periodic Board review of all delegations, including benchmarking.
University President Duties and Responsibilities

In carrying out these duties and responsibilities, the President shall:

(1) University Administration and Oversight.

(a) Organize the University to efficiently and effectively achieve its goals, and periodically review and provide reports to the Board of Trustees on University operations in order to determine how effectively and efficiently the University is being administered and whether it is meeting the strategic goals of the University, including the goals of its strategic plan adopted by the Board of Governors and other strategic goals for advancement of the University endorsed by the Board of Trustees

(f) Take routine administrative actions on behalf of the Board of Trustees related to the development, adoption, amendment or repeal of University regulations, or any action required under the Florida Administrative Procedures Act, Chapter 120, Florida Statutes. This authority does not include the final approval of University regulations.

(g) Propose regulations for approval by the Board of Trustees, when appropriate.

(h) Establish procedures related to data and technology, including information systems, communications systems, computer hardware and software, and networks.
(i) Secure comprehensive general liability insurance pursuant to sections 1001.706(4)(d) and 1004.24, Florida Statutes.

(Note: Larger institutions may want to consider whether to establish a monetary threshold in connection with the hiring of an Athletic Director and Head Coach that would trigger a requirement to consult with the trustee chair. UF is considering a $1 million annual compensation threshold that would trigger the requirement to confer with the trustee chair and to notify the trustee vice chair.)

(c) Approve travel in accordance with section 112.061, Florida Statutes.

The acquisition may include purchase by installment or lease-purchase. Such contracts may provide for payment of interest on the unpaid portion of the purchase price. (Note: This paragraph groups together categories that are separate and distinct in nature, e.g., goods and services and leases. Monetary thresholds and/or term limitations for contracts for goods and services and leases will vary depending upon the size and complexity of a university.
