Subject: Biscayne Bay Campus Aquatic Center Repair and Renovation

Proposed Board Action:
Approve up to $2,000,000 in structural repairs to the Aquatic Center at the Biscayne Bay Campus (BBC) utilizing unexpended Activity and Service (A&S) fee funds and approve a request to the Florida Board of Governors (BOG) authorizing reimbursement of (A&S) fee funds expended for Aquatic Center repairs from the Capital Improvement Trust Fund (CITF) fees allocation and a reduction of the same amount in CITF fees previously approved for the Graham University Center expansion.

Background Information
The Aquatic Center in Wellness and Recreation at BBC provides both the recreational and National Collegiate Athletic Association (NCAA) competition needs as the home to the five-time Conference USA Championship FIU Swimming and Diving team. The Aquatic Center also serves almost 250,000 students and members of the community each year. The Aquatic Center is a premier aquatic training facility within the State of Florida and the east coast of the United States. University and club teams from across the country consider the FIU Aquatic Center at BBC their home winter training facility. Operating costs of the Aquatic Center are paid by A&S Fee funds and fees paid by non-students.

The Aquatic Center is approximately 35 years old, with the last renovation occurring in 2009. Recently, a comprehensive structural and safety review identified over $1,600,000 in needed repairs to correct structural deficiencies, water intrusion issues, and critical deferred maintenance issues. FIU has received a Guaranteed Maximum Price proposal from Thornton Construction Company, one of FIU’s continuing services contractors acquired through a competitive selection process. Additional funding authorization of approximately $400,000 is requested beyond the preliminary cost projection due to unforeseen conditions that may be present as the project gets underway. In order to have the Aquatic Center ready for the first 2019-20 swim meet on September 26, 2019, the project needs to begin as quickly as possible based upon the projected six-month repair period.

FIU has consulted with (BOG) staff on the project and the source of funding to undertake the repairs. The temporary utilization of unexpended A&S fee funds and subsequent reimbursement by CITF fees requires BOG authorization; BOG approval is required for all CITF projects. Upon approval by the Florida International University Board of Trustees, it is anticipated that the BOG will consider the request at its June 13, 2019 meeting.

BOG Regulation 7.003(16), Fees, Fines, and Penalties, provides, in relevant part, that no project proposed by a university which is to be funded by the Capital Improvement fee shall be submitted to the Board of Governors for approval without prior consultation with the student government association of that university. In accordance with BOG Regulation, FIU
has consulted with the FIU Student Government Association on the utilization of CITF funds to complete the Aquatic Center repairs.

Subject: CasaCuba Building

Proposed Board Action:  
Approve the design and, upon receipt of required funding, future construction of the CasaCuba building on the east side of the FIU Modesto A. Maidique Campus and approve an amendment to the University Campus Master Plan to include the CasaCuba project.

Background Information
FIU is a global leader in the study of Cuba and the preservation of Cuban culture. In addition to enrolling the largest number of University students of Cuban origin outside of Cuba and housing the largest nucleus of faculty experts on Cuba, FIU’s prominence in Cuban history, oral narrative, genealogy, photography and art collections across multiple colleges and museums uniquely positions the University as the country’s preeminent intellectual and cultural hub dedicated to fostering understanding of the Cuban heritage. CasaCuba will leverage these significant academic and non-academic resources to expand FIU’s depth and breadth of teaching, scholarship, and cultural engagement on Cuba and the Cuban diaspora.

CasaCuba will allow FIU to build a leading intellectual and cultural center dedicated to creating and disseminating knowledge about Cuba, and preserving Cuban culture. As a gathering place for researchers, students, the South Florida community, and visitors from around the world, CasaCuba will offer a welcoming home away from home to learn about Cuba and the Cuban diaspora, and a think tank that provides a forum for exploration and discussion of Cuban affairs, producing impactful analysis to guide policymakers and business leaders. As a cultural institution, CasaCuba will celebrate artistic expression in all its forms, recognizing talent and achievement and inspiring creativity in the Cuban community and beyond. CasaCuba will be fully integrated with our existing institutes, programs, research initiatives and cultural collections related to Cuba and Cuban-Americans, including the Cuban Research Institute; the Kimberly Green Latin American and Caribbean Center; collaborative research and professional engagement with Cuban scholars, artists, and intellectuals; Patricia and Phillip Frost Art Museum; Wolfsonian-FIU; The Jewish Museum of Florida-FIU; and FIU Libraries.

CasaCuba will be located at the SW corner of SW 16 Street and SW 107 Avenue, directly across from the Ronald W. Reagan Presidential House. CasaCuba will contain approximately 63,000 gross square feet (GSF), including 40,000 GSF of auditorium and exhibition space, 5,500 GSF of classroom space, 5,600 GSF of teaching and research labs, and 12,000 GSF of office, computer and campus support space. The total cost of the project is $37.3 million, reflecting $28 million in construction, site and utility costs; $2.5 million in architectural, engineering and professional fees; $3.8 million for movable furnishings and equipment; $1.9 million contingency; and $1.1 million for construction services.
Funding for planning, design, construction, and equipment will come from private funds through fundraising, private grants, and private foundations. The estimated annual operation and maintenance (O&M) budget for utilities, normal maintenance, repairs, routine equipment replacement, and custodial and landscaping services is $635,000. O&M funding will come from an endowment reserve and net revenues from events taking place within CasaCuba. The total fundraising goal to build and operate the facility is $50 million.

Currently, over $4.1 million has been raised for the project. The John S. and James L. Knight Foundation, which contributed $200,000 in 2017 to hire an executive director and launch CasaCuba operations, also donated $2 million in 2018 in support of project development. Additionally, FIU Foundation, Inc. Board of Directors member Agustin R. Arellano, Sr. and his family donated $1 million to CasaCuba in 2018. The National Endowment for the Humanities recently awarded a 2019 grant in the amount of $750,000. Other gifts in the amount of $172,145 have also been received to support the CasaCuba project. Anticipated available cash through next year in the amount of $1.7 million will be used to begin the architectural/engineering selection process and the development of design plans consistent with the approved building program. Once design development and architectural and engineering design plans are finalized and approved and the total funds for the project are obtained, FIU will begin the process of advertising for and selecting a Construction Manager for the project. Construction is expected to take approximately 19 months.

The University Campus Master Plan will be amended to reflect the location of the CasaCuba building on the SE corner of campus, at SW 16 Street and SW 107 Avenue. The project is consistent with required elements of the Campus Master Plan including future land use and academic/support facilities described in the capital improvement element to accommodate future needs.
